## Greetings fellow IVAO pilots

The United States Division is proud to announce the last big military event of the country in 2009. This exciting and challenging event will let you fly on low levels, formations, interceptions and in air refueling procedures

The First part of the event begins at Altus air force base(KLTS) and then works its way into the sky of forth worth, where you will find 2 tankers of the USAF. To finish, you land back on Altus air force base (KLTS).

First, you need to fly over 5 points via a specific route we made. Above each waypoint, you will find a big pole with a letter on. With these letters you have to form a word. Once you landed again on Altus air force base, you can login on a special page with the word you have formed.

This is where part two begins.

On the page where you have to login, you will find information about 2 tankers who are flying somewhere in the Forth Worth ARTCC. Read this information carefully, as it brings your event to a good end.

Upon successful completion of this event (part1 + part2), you will receive a specops point for the Jet Fighter Award

For more information, please visit the event topic at  
<http://events.ivaousa.org/xxxxxxxxxxxxxx>

Good luck, and enjoy!  
The USA division

## When?

November 22, **1900Z** until the last plane has landed.

You can start this event **UNTIL 1945Z**, later connections will not be accepted for the event due the sunset around 5 p.m.

## Duration?

Approx. 90 minutes

## Where?

Altus Air Force Base (KLTS)

## What plane?

Any fighter will do (F-14, F-15, F-16, F-18, etc....)

## Login Page

If you finished the First part ( take-off, fly the route, land at altus), you can form a word with the letters you have found. That word is the password to login on the page to start Part2

Login page for part 2 : <http://specops.ivaousa.org/Altus/loginform.html>
